

To all our customers: Hospitality Surge charge on all Orders

The hospitality industry has experienced long ongoing challenges and skyrocketing costs such as food costs and overhead costs however, our industries biggest challenges and costs relate directly to our employees and the costs to keep them gainfully employed. Here are a few significant increases:

- Minimum wage increases which are projected to continue to rise at a record pace
- Salary & hourly rates increases due to staff shortages and market demand
- Payroll insurance and benefit increases
- Illinois PTO -Paid leave act for all workers act & Chicago Paid Sick Leave act

As a result, we have implemented a 3% Hospitality Fee, to help cover these increases but most importantly it is utilized to retain and attract key and talented employees so we can continue to provide quality services you have experienced for many years!

Panino's Pizzeria's greatly appreciates your loyalty and support, and we will strive to continue delivering quality products and services through these challenging times that so many Americans are experiencing.

Sincerely,  
Gino, Bruno & Lenny  
Panino's Pizzeria
